Rebuilding the Republican Party of Virginia – From the ground up

For too long, the Republican Party of Virginia (RPV) has been dominated by “swamp” elites, dictated to by elected leaders instead of the grassroots. As a result, our conservative values are losing, and Republican elected officials continue to cave to socialist Democrats.

It’s time the Republican Party of Virginia became the party of the grassroots. Our Founders believed that power starts from the bottom up, and not from the top down. I will work to reform the “Party Plan” (the RPV “constitution”), taking power out of the hands of elected officials and empowering the grassroots conservatives. It is time our elected officials fight for our values, instead of demanding that we support their surrender to Swamp Democrats in Richmond and Washington.

I was a proud Bob Good delegate in 2020. I’m committed to helping Bob win renomination and continue to represent us.

My Values: * 100% Pro-life from conception * Fight for our Second Amendment and other constitutional rights * I will fight for election integrity * Fight for parents’ rights and against “transgender” propaganda in schools *

I NEED YOUR HELP! Please sign up as a delegate to the Fifth District convention on Saturday, April 27, at 10:00 at Drakes Branch Volunteer Fire Department, 4801 Drakes Main St., Drakes Branch, VA.
